

## December Newsletter ~ Seasons Greetings!

After 21st of December daylight hours begin to get longer again. While Bees and the plants they work on slumber quietly we are wide awake! We still offer you our time & experience as **PERSONAL SHOPPERS** to help you choose, wrap & send Christmas presents and we are ready for the inevitable increased demand of

Flynn's goods & services before government raises V. A.T. on January 4th.

Flynn's absorbed the last rise and wherever possible we shall help the situation for you again. By careful budgeting we will absorb some of the rise (which we still have to pay to government). Unfortunately VAT is something which we have no control over and affects many of our products, so we have prepared a forecast for some of next months prices in case you would like to stock up now and also save on the cost of post & packing.

*Good Health and Enjoy your Winter Solstice ~ Sudi & Chris.*

**N.B. Last Orders to preclude VAT increase before 3pm 24th December**
