

## Wishing all our friends a Happy and Healthy 2011

And a very big THANK YOU for your custom and your loyal support through 2010. Very special thanks also for your understanding & help when we were all targeted by internet "hackers" intent on fraud with their scam e.mail and website. Luckily, many of you sounded the alarm and a

Metropolitan police officer congratulated us and you on our swift reactions - within seconds of us contacting the authorities that scam website had vanished! Please be reassured that we never need your passwords and will never approach you to ask for your bank details; we only ask for them when you order by phone as we don't keep them on record, ever.

At present our webshop is offline for repair and to be made even more secure but it will be updated and running again a.s.a.p. for you to enjoy once more.

Meanwhile, Chris & Sudi are happy to take your enquiries & orders by phone, letter or email and when unable to take your call they will always ring back if you leave your number & name.

Cold winter is often accompanied by miserable germs, aches and pains which all tax our body's immunity. But the bees' own antibiotic, Propolis, can help! In fact, in many other countries Propolis is a prescription medicine. It is known to boost the immune system, ease joints and is taken by athletes who have to perform their best in all climates.

Aware of this, Flynn's family has always ensured that our Propolis Capsules are the top quality available throughout Europe & beyond. To help you fight off the "winter blues" and get 2011 off to a flying start we are offering 10% off our Propolis Capsules:

**90 Propolis Capsules NOW £10.58 You save £1.17**

**180 Propolis Capsules NOW £20.70 You Save £2.30**

Throughout January.

As you know, V.A.T has gone up by 2.1/2 pence in the pound so some of our products will have gone up too, but

HONEY REMAINS THE SAME PRICE! So do books, jams and preserves.
