

MARCH INTO SPRING

This month sees the start of British Summertime, Mothers' Day and the first weekend in April is Easter. We are pleased to report that our bees have suffered minimal losses this year- despite the best efforts of a family of woodpeckers! As this winter was particularly harsh the woodpeckers were desperate for food and the idea of a hive full of tasty insects was just too irresistible. However No.1 on our "to do" list is to make cages to fit over the

hives to keep woodpeckers off next year. Our bees must be good strong stock as they mostly survived the cold wind blowing through the woodpecker holes!

LOOK OUT FOR NEW LABELS

Very soon we will be putting new labels on many of our products including Propolis Capsules. Our labels will all be designed & produced "in-house" to keep prices down and the changes should make them easier to recognise. Our products remain unchanged and as good as they always have been!
